

HSIE FACULTY

Human Society and Its Environment (HSIE) at Caringbah High School offers students a diverse curriculum spanning Years 7 to 12, delving into History, Geography, Economics, Legal Studies, Society and Culture, and Studies of Religion. In the junior years, students embark on a journey through ancient civilisations and geographical landscapes.

HSIE fosters critical thinking and analytical skills as students investigate past events, cultural dynamics, global economic systems, and the intricate relationships between societies and their environments.

Whether exploring ancient artefacts or analysing current global challenges, HSIE provides students with a rich educational experience that prepares them for the diverse world beyond the classroom. Discover the past, understand the present, and shape the future with HSIE.
